## We only deal with Medical Professionals

**ELIXIR**  
WEALTH ADVISORY

EXCLUSIVE & INSIGHTFUL

Elixir Wealth Advisory is a Specialist Medical Financial Services firm providing Accounting, Tax, Finance, Credit, Debt Management, Wealth & Personal Risk Management Services exclusively to Medical Professionals.

Very few Doctors are good with their finances, most of us are not. If we receive proper guidance and advice, we can focus more on what we have trained for. This brings better results and outcomes for us as medical professionals, and for our patients as well.

Since coming to Australia in 2010 as a GP, we contacted many Accountants, Financial Advisors and Financial Services firms. Only one of them could provide us First Class service with exceptional commitment and it was "Elixir Wealth Advisory".

**– Dr Peyman Esfahani**  
MD PMETB ECFMG MRCGP FRACGP

Medicine is a unique field replete with its own challenges and rewards, and one that requires the utmost concentration, skill and dedication. Hence it is a tremendous relief when one can hand over the financial aspects of one's work life to a reliable team of consultants such as the Elixir Wealth Advisory. The sincere and thorough advice and guidance provided to myself by the team at Elixir has provided me with peace of mind and has cemented my positive outlook in general. I cannot recommend Elixir Wealth Advisory enough, and only wish that I had enlisted their services earlier.
